Price Guide

Our story

Dangerfield & Keane opened its doors on Wednesday March 26th 2008.

Our business is just like your **hair** and your **skin**.

Hair is a natural fibre that changes with you as you age. Texture, colour, shape and style all vary and alter depending on your health, frame of mind and the influence of fashion you find around you. **Skin** can age and fade, or look radiant and glow, depending on what you consume, how you treat it and what you use to protect and nourish it.

We take care of **our business**.

We look for the right people and we train them. We continually educate them so that they can grow and develop as people. In turn they are better equipped to cater for your needs, to style **your hair** and care for **your skin**. We have searched out the best suppliers to work with us and provide the very best products available in the industry today. We are also committed to providing the most comfortable and caring surroundings for you to relax and enjoy your treatments.

Our salon has changed since that opening day and it will continue to change and develop, just like fashion, our people, **your hair**, and of course **your skin**.

Lets face it... there are lots and lots of hair and beauty salons in Harrogate, but we think we do it differently and we hope you think so too.

We look forward to seeing you soon,

DANGERFIELD & *Keane*
